

EVENT TRACKING

Advanced Student Tracking and Validation

Whether you're looking to efficiently manage campus events or track student use of various facilities on campus, TotalCard Tracking can help. Every TotalCard customer can create customizable events and activities in the system quickly and easily.

"We have large numbers of students, alumni and community members who use our recreation center. Students and Alumni can access the facility for free, as long as they have a valid ID card. TotalCard lets us scan IDs as people enter the facility and easily keep track of who has been there and who needs to pay for access. It's really easy."

Student Worker, Campus Recreational Center

Key Features & Benefits:

- Validation of Student ID for use of recreational facilities
- Membership management for pool or health center
- Controlled entry to events for those that have purchased tickets or have valid student IDs
- Use of electronic reporting features to see who is attending events
